

## FALL 2017-2018 PROGRAMMING GRANT GUIDELINES, RULES, AND PROCEDURES

---

### I. PURPOSE:

The primary purpose of the Programming Grant is to fund programs that further the quality of student life, and enrich the educational, cultural and social experiences at the University at Buffalo. In light of these goals, organizations that receive awards are to use them to launch new programs, expand existing programs, or produce publications. All funding is subject to the agreement between Faculty Student Association at SUNYAB and Sub Board I, Inc.

### II. ELIGIBILITY:

Any group recognized by a University at Buffalo student government or a University at Buffalo affiliated student organization, which is also affiliated with Sub Board I, Inc. may apply for the Programming Grant. Please work with your student government treasurer to include your organization's account number to affirm your status as a student organization and facilitate any disbursement of funds.

### III. APPROVAL:

In considering whether a grant is approved, the SBI Board of Directors may consider the following factors, **including but not limited to**, number of students affected, fiscal controls for the program, amount of grant request, the degree of expansion of existing programs, and/or the uniqueness of innovative new programs. The Board of Directors and Programming Grant Committee reserve the right to deny any application for any reason. (Please see additional guidelines and rules below).

### IV. FUNDING:

- A. The Board of Directors may fund all, part, or none of the requested grant amount. The Board of Directors will utilize the rules and guidelines in this document in determining whether your request will be funded or denied. The Board of Directors may reject your request or condition your grant award upon rules and guidelines not included in this document. All conditions stipulated by the Board of Directors, Programming Grant Committee and/or SBI Treasurer must be satisfied.
- B. The Board of Directors has imposed a **maximum** award amount on each grant request submission. The Board of Directors may approve part of the requested amount up to the maximum award amount. Grant applications that request *less* than the maximum amount have a significantly higher likelihood of approval.
  - i. **New program maximum - \$3000.00**
  - ii. **Expanded program maximum - \$1,000.00**
  - iii. **Publication maximum - \$1,000.00**
- C. Sub Board I, Inc. reserves the right to rescind a grant upon the occurrence of any of the following: breach of application guidelines or rules, violation of contractual provisions, or financial impropriety.

## VI. GUIDELINES:

- A. Projects for consideration must enhance the quality of the university experience for University at Buffalo students. Through the programming grant, organizations have the opportunity to increase the quality of the services they offer to students by creating new programs, expanding existing programs, or producing publications.
- B. Funding may be sought to further develop programs already in existence or for new innovative programs. An example of an expanding program is hosting a pre-existing program at the Center for the Arts this year, as opposed to previous years when it was held at the SU Theater.
- C. Ensure that the proposed grant will affect a substantial portion of the student population. The committee and Board of Directors may reject any application that is determined to impact an insignificant portion of the University's student population.
- D. The Board of Directors will adhere to the guidelines set forth in this document, but the funding of the grant is at the discretion of the Board of Directors. The overall goal when allocating funds is to be equitable and fair to the entire student body.
- E. In order to submit the best possible application, consult your student government Treasurer or the SBI Treasurer to review the grant application before the due date.
- F. **CONFERENCES (The following additional guidelines apply to conference grants):** Please describe how the conference will benefit the student body, not just the individuals who are attending. An example would be the date of a presentation to be made by the attendees to the student body, how many students will attend, and where the presentation will take place.
