

Q1 The following are GSA Services that are funded by your mandatory student activity fee. Please indicate how important each is to you.

Answered: 548 Skipped: 0

	Very important	Somewhat Important	Not too important	Not important at all	Total	Weighted Average
Editorial Services	17.15% 94	27.01% 148	29.38% 161	26.46% 145	548	2.65
Statistics Services	15.69% 86	29.38% 161	27.01% 148	27.92% 153	548	2.67
Programming (Tickets, Events, Java Junction, etc.)	25.55% 140	35.40% 194	20.07% 110	18.98% 104	548	2.32
Webmaster (help with websites for both individuals and clubs)	11.86% 65	28.65% 157	31.02% 170	28.47% 156	548	2.76
Distinguished Speakers Series (free tickets)	35.40% 194	35.77% 196	15.88% 87	12.96% 71	548	2.06
Mark Diamond Research Fund (research funding)	54.38% 298	26.64% 146	9.67% 53	9.31% 51	548	1.74
Conference Funding	70.99% 389	19.16% 105	4.93% 27	4.93% 27	548	1.44

Departmental & International & Special Interest Club Budgets (regular amount given to clubs)	33.39% 183	32.30% 177	19.16% 105	15.15% 83	548	2.16
Special Activities, Publications, Interdepartmental Event, Community Outreach Funding for Clubs (additional funding that clubs can apply for)	28.47% 156	38.50% 211	17.88% 98	15.15% 83	548	2.20

Q2 Which three services would you like to see more mandatory student activity fee money go to?

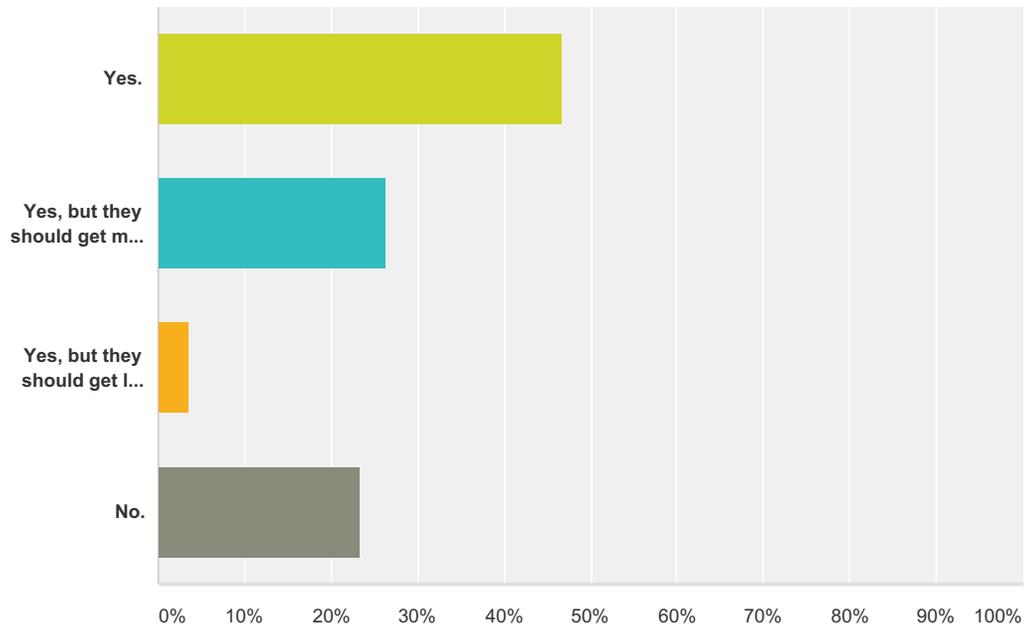

Answered: 548 Skipped: 0

Answer Choices	Responses
Editorial Services	15.15% 83
Statistics Services	12.41% 68
Programming (Tickets, Events, Java Junction, etc.)	29.74% 163
Webmaster (help with websites for both individuals and clubs)	4.38% 24
Distinguished Speakers Series (free tickets)	33.58% 184
Mark Diamond Research Fund (research funding)	50.91% 279
Conference Funding	69.89% 383
Departmental & International & Special Interest Club Funding (regular amount given to clubs)	29.93% 164
Special Activities, Publications, Interdepartmental Event, Community Outreach Funding for Clubs	20.26% 111
Total Respondents: 548	

Q3 Would you support the creation of a scholarship fund for parenting students? GSA used to have such a fund, where parenting students could apply for up to \$500 a year in child care expense reimbursements, based on financial hardship.

Answered: 548 Skipped: 0

Answer Choices	Responses
Yes.	46.72% 256
Yes, but they should get more than \$500.	26.28% 144
Yes, but they should get less than \$500.	3.65% 20
No.	23.36% 128
Total	548

#	Other (please specify)	Date
1	might be easier if there was a UB subsidized childcare program	3/6/2017 12:33 PM
2	Funds should support childcare services, i.e. providing Parenting students with discounted/free daycare time/days/hours	3/6/2017 12:28 PM
3	It's not appropriate to use Activity Fees to pay for childcare. Perhaps a University donor would be interested in helping.	3/6/2017 9:11 AM
4	There needs to be a cap for the amount budgeted	3/5/2017 1:03 PM
5	\$500 is too less to cover anything	3/5/2017 12:10 AM
6	Eliminate the editorial services and use that money to pay for a scholarship fund.	3/4/2017 3:29 PM

7	I would appreciate a more transparent record of who comes up with these ideas. Not that I disagree with the idea, but transparency is key to find out if this is something that was conceived to help specific people. Same goes for the statistics services.	3/4/2017 12:25 PM
8	Most definitely!!!! I don't want my \$ going to crap!!	3/3/2017 8:37 PM
9	Yes, but it should be expanded to any student with a dependant. Such as adults who must care for elderly, sick parents by hiring home nurses.	3/3/2017 2:09 PM
10	Yup	3/3/2017 12:05 PM
11	\$1000	3/3/2017 11:12 AM
12	The amount should be flexible based on financial need with more money for single parents raising a child off their stipend alone. Potentially up to \$1,000 or more for cases of dire financial need. I think the disbursements of such a scholarship should be very limited and heavily reviewed/scrutinized.	3/3/2017 10:06 AM
13	If *3 is approved, the I suggest adding 'House Rent'	3/3/2017 9:32 AM
14	I	3/3/2017 9:24 AM
15	The charge should apply to all students, grad and undergrad, rather than deduct money from the graduate budget to provide services that the university itself should provide.	3/2/2017 9:44 PM
16	n/a	3/2/2017 7:39 PM
17	There should be with child's age limit of maybe till 8/9 year old	3/2/2017 6:54 PM
18	Only if current GSA services are not cut.	3/2/2017 6:43 PM
19	This is discriminatory and a misuse of funds.	3/2/2017 5:50 PM
20	Nowadays \$500 is pennies for childcare - I don't have a kid and I know this.	3/2/2017 5:48 PM
21	And there should be \$500 for other expenses for non-parenting grad students. In other words, every grad student should be eligible for this \$500.	3/2/2017 5:30 PM
22	Everyone has personal life impediments that must be overcome for our graduate work; \$500 has a very low chance of helping, and the money could be better spent on other services	3/2/2017 5:23 PM
23	I agree, but feel that UB should at least match the amount, if not provide the entire amount.	3/2/2017 5:11 PM
24	Is there a scholarship for students who are not parents?	3/2/2017 4:54 PM
25	Parenting graduate students should get paid leave for each child and affordable childcare on campus.	3/2/2017 4:47 PM
26	No, please don't use my mandatory funds for this - would this not be covered in a financial aid situation (based on financial hardship)? Has there been a needs analysis?	3/2/2017 4:38 PM
27	NO	3/2/2017 4:29 PM
28	I have no reference for determining an appropriate dollar amount. The GSA should look into this to decide if \$500 is sufficient for childcare.	3/2/2017 4:28 PM
29	THANK YOU GSA, this would be amazing!!!!	3/2/2017 4:26 PM
30	\$500 is fare!	3/2/2017 4:26 PM

Q4 Please provide any additional thoughts/ideas/comments about the mandatory student activity fee & how GSA spends it (no word limit).

Answered: 115 Skipped: 433

#	Responses	Date
1	I have missed having tickets to Shea's performances this year. Mark Diamond and conference funding are important to me. The webmaster seems the least important to me	3/20/2017 2:31 PM
2	I think we should have a speaker come and talk about Open Educational Resources	3/15/2017 6:52 PM
3	I would prefer if the mandatory student activity fee was made voluntary, as many graduate students cannot afford to pay over \$2,000 in fees every year.	3/11/2017 3:39 PM
4	No comments.	3/10/2017 4:04 PM
5	As a distance learner, I feel left out of events that the GSA sponsors. Since the fee is mandatory for all students, regardless of distance learner status, then the services supported with the fee should be universally accessible to all students (not just those near campus).	3/8/2017 2:07 PM
6	It's difficult to comment on as an online student, as I'll never partake of on-campus activities and events.	3/7/2017 7:33 PM
7	I suppose I don't really mind how much the fee is. I figure, if I'm already in 40K worth of debt, another couple hundred bucks per year won't hurt.	3/7/2017 3:38 PM
8	GSA should provide FREE AMC movie tickets. Grad students should benefit from this, not just undergrad students.	3/7/2017 2:38 PM
9	Also, can we have a Java junction on south campus please?? how much is child care per year? I am not a parent so I don't know. if its more than double 500 then yes I think more is better, but if 500 can be given to more parents in need, then perhaps thats a better use? Maybe a scale based on neediness?	3/6/2017 10:32 PM
10	I think that the mandatory fee is way too high. I haven't utilized any of these services or benefits.	3/6/2017 5:59 PM
11	More specialized trainings like the MI one	3/6/2017 2:28 PM
12	More social/networking events such as events at Pearl st and/or better advertising for them	3/6/2017 1:56 PM
13	There should be no increase in funding. It is already more expensive than we would like, and we do not end up seeing where the money goes.	3/6/2017 1:42 PM
14	N/A	3/6/2017 1:03 PM
15	I think that it needs to be more well publicized how the GSA spends this fee, I didn't know that most of these things exist and have barely used them.	3/6/2017 12:33 PM
16	I do not feel an mandatory fee is necessary. Students should pay for the activities they want to participate in.	3/6/2017 11:56 AM
17	Too Much Fees, ABSOLUTELY.	3/6/2017 11:06 AM
18	Mandatory student activity fee should not be there for international students as they are already paying international student fee.	3/6/2017 9:41 AM
19	I find it ridiculous that while we pay an activity fee each year, we are not invited to certain events on campus (like the Trevor Noah event). Also, the money going into conferences is not enough to cover even the registration fee to the conference, let alone travel expenses.	3/6/2017 9:32 AM
20	Parenting fund is a great idea. Much needed by many students	3/6/2017 9:11 AM
21	Programs that develop community and support professional development should be the focus. More professional development activities that build community should be supported. For instance, instead of just hosting brown bag lunch sessions, the school can offer Evening events over dinner with a panel of speakers/mentors.	3/6/2017 9:11 AM
22	I love the idea of providing scholarships to students in need. Personally, I think I would be more willing to give if I knew it was going to a good cause like that.	3/6/2017 8:59 AM

23	I believe the fee should be used toward programs that help students excel academically within the departments that they must navigate. Thus, social-based programming is not as important as that determined by individual clubs, unless the GSA as a unit could find more effective ways to connect individuals clubs with one another. Additionally, funding and educational services that assist students with their research and writing (Mark Diamond, one-time \$500 conference funding, and editing) seem to best promote the interest of aspiring academics. I am not sure how "statistics services" serves a large majority of students, as those programs in the sciences have already masters statistics at the undergraduate level.	3/6/2017 8:33 AM
24	Grad students should be allowed to attend events like Fall Fest, Spring Fest, and comedy events like the recent Trevor Noah event.	3/5/2017 3:47 PM
25	Keep up the good work!!!!	3/5/2017 3:32 PM
26	The editorial service, statistics, programming, and MDRF should be paid per hour or they should be required to serve 20 hours a week like TA/GA otherwise they make a lot of money for only a couple hours a week	3/5/2017 1:03 PM
27	The student activity fee shouldn't be mandatory.	3/5/2017 10:52 AM
28	I think that it this fee should be designated more towards things that online students could participate in, as many of these are not available to online students.	3/4/2017 6:56 PM
29	should reduce or eliminate it	3/4/2017 6:25 PM
30	Your survey should have a "neutral" option to questions, like, "This is not important to me either way." You may skew your feedback by only allowing positive and negative feedback. Also, it is not clear if for question #3 you mean to send existing funds toward the scholarship or to increase fees to fund that. My answer would depend on the way the scholarship was funded.	3/4/2017 4:01 PM
31	The current GSA e-board has many ideas, but little wisdom on what is important. The editorial services should be eliminated, and the money from those services should be divided between giving money for actual editing work and a scholarship fund for parenting students. The e-board should remember there is no such thing as a free lunch; the fact that they are in charge does not give them free reign to plunder their members for wild schemes.	3/4/2017 3:29 PM
32	I'd like the budget for the current year to be posted clearly on the home page of the website. I don't think GSA should spend money on statistics or sditorial services. The first can be fixed by taking a class, while the second one is often provided by advisors.	3/4/2017 12:25 PM
33	I would like to have some forums available online. As a distance student, I could really benefit from some of the programming, but the benefits are restricted because of distance.	3/4/2017 11:15 AM
34	While I put conference funding as where I would like to see more money spent, as I think finding funding for that is important and difficult, I equally think that funding for student fun activities is also important. I go to as many fun event as possible (at least twice per month). Graduate school is stressful and we are all poor, so having those affordable or free fun activities is important for mental health. Thanks for all that you do.	3/4/2017 9:27 AM
35	Editorial support, the webmaster and programming are the things that I use the most from the GSA. I am so happy to have them available!	3/4/2017 1:39 AM
36	Should concentrate more on Career & Job perspectives, if possible	3/4/2017 1:19 AM
37	Student activity fees should be mostly used to support graduate students to attend conferences and to help their research go forward.	3/3/2017 9:46 PM
38	As a commuter graduate student, I don't spend a ton of time on campus. I would like it to go to event tickets and social events for grad students to mingle and get free coffee before class or something. LOL	3/3/2017 9:28 PM
39	Launch an app for UB GSA. Invite famous sport personalities to distinguished speakers.	3/3/2017 9:01 PM
40	I honestly don't want my fees going to any of the 3 crap ?? above however it forced me to pick 3 of which none even concerned me!! Nor would I ever use!!! I'm a parent going back to school and working full time and don't have time for extra crap!! Use my fees for something I would actually benefit from such as financial help for us single struggling moms trying to go back to school instead of crap I could care less about nor even use!!!!	3/3/2017 8:37 PM
41	The creation of scholarship funds should be based on academic merit rather than on whether or not a student has kids.	3/3/2017 7:52 PM
42	Scholarships would always be my preference for spending the money. I live too far away to benefit from anything on campus.	3/3/2017 7:16 PM

43	I was completely unaware of some of these services! Specifically editorial services!!!!!! And also specific avenues for research funding. However, awareness of "club" and "GSE" events clutter my email. Students enrolled ft, with GA's/TA's, and/or kids do not have the time to participate in such activities. However, child care expenses would be huge along with conference monies. The tax credit for childcare expenses has been capped at 3g per child for 15 years, and some money towards the expense would be helpful. Or even a discounted rate for grad students children to attend UB's daycare.	3/3/2017 6:58 PM
44	The hard separation between GSA and SA is kind of silly. I spent 4 years here as an undergrad and was in one club this entire time. Then my 5th year here, as a masters student, I wasn't able to be purchase any of the discounted trips or vote in the club since I no longer paid the SA mandatory fee.	3/3/2017 6:46 PM
45	Use it for scholarships for students with great financial need	3/3/2017 6:39 PM
46	I think the GSA does a great job when it comes to spending the funds. I don't feel that my money is wasted of silly things. I personally don't think the fee is high enough. But I also don't see a need for raising it too much because people don't take advantage of the services offered.	3/3/2017 6:35 PM
47	Activities that include International Online Students. Everything is very campus based and often we aren't allowed to attend anything, or any talks. If having a special talk, set up the technology so online students can participate and attend.	3/3/2017 6:33 PM
48	On line services and assistance for distance learners who may not have a PC	3/3/2017 4:04 PM
49	More special features and programming for online degree students please, such as recording of events that can be accessible from off campus.	3/3/2017 3:17 PM
50	I'd really rather not pay any fees.	3/3/2017 3:01 PM
51	I will go with the department's decision	3/3/2017 2:52 PM
52	Mandatory student activity fees should be REDUCED for online students whom are never on campus and would not benefit from the majority of on campus activity. Why should online students from afar subsidise things for other students when the price of tuition alone is overwhelming. REDUCE or stop the activity fee for online students.	3/3/2017 1:59 PM
53	Higher amount for master students attending a conference	3/3/2017 1:45 PM
54	I pay too much for nothing. What do you actually do with all of the money?	3/3/2017 1:34 PM
55	I like the idea of jingle jam, mardi gras, etc, but I would prefer to have a less formal event. Like renting a room at ub with food and drinks and just have different departments hang out. It would be easier and cheaper for both the gsa and grad students	3/3/2017 1:17 PM
56	More support for online students	3/3/2017 1:12 PM
57	As a distance learner I don't think I should be expected to pay a fee to support on-campus events that I cannot attend (I am located in south Jersey, so it would be out of the question for me to make the trip, regardless of how interested I was in the event). Please consider making this fee optional for distance learners. Out of state tuition is expensive enough, and extra fees that provide no known benefit to off-campus students only increase the financial burden. I understand that students taking both classroom and online courses, or students near the Buffalo area may feel differently, but I don't believe I should have to pay for these events and services that I am not using.	3/3/2017 1:06 PM
58	I am a 100% online student and I apply for exemptions for the fee each semester, so my input to this survey is theoretical	3/3/2017 12:59 PM
59	n/a	3/3/2017 12:41 PM
60	As a fully online student, much of what the fee pays for is irrelevant to me.	3/3/2017 12:38 PM
61	spend it wisely for greatest impact on students first then community second	3/3/2017 11:38 AM
62	Most graduate students have put off doing things and/or made sacrifices to be here. I therefore feel that giving parenting students a scholarship is both unfair and deeply insulting.	3/3/2017 11:33 AM
63	I understand student activity fee is necessary for GSA, but in general I would like to see fees being reduced by UB administration.	3/3/2017 11:22 AM
64	I really don't understand why online only students HAVE to pay this fee; why not make it optional, and then if you actually use the services, pay the fee?	3/3/2017 11:05 AM
65	I think GSA students should get a stipend so that they would be able to attend functions or do more within their programs	3/3/2017 10:45 AM

66	Some reputed journals asks printing fees. If PI does not have enough funds then we have to compromise on color vs blackn white version of the paper. If we can get some assistance on this issue that will be great. After all its my paper and my Ph.D. as much as PI's paper .	3/3/2017 10:45 AM
67	If each student is allocated \$350, then please give them all of that money. I am attending a conference and only eligible for \$200, but what will happen to the other \$150 that is allocated for me as a graduate student.	3/3/2017 10:38 AM
68	I think it is very useful for Graduate Students to have the opportunity to become part of a club. It allows them to get important experiece to put on their resume, example being an officer. In the case of the LIS club, being an officer gets the person a higher rating on the Civil Service Rating System. That could lead to a job. It is also important to foster relationships. People can get help with assignments, projects from others in their major or classes. Last but certainly not least, it is good to be able to enjoy others company, reduce the stress level by being with others going through the same things.	3/3/2017 10:35 AM
69	Please find a way to get TA/GA/RA more funding	3/3/2017 10:33 AM
70	Its crazy to talk about the value of education at UB and raising these fees. Honestly, to me, these fees benefit an extremely small group of graduate students with special interests while the majority of students are stuck paying for it. Everything should be fee-for-service. let those people pay for their own speaker tickets to see movie stars and has-been politicians speak for an hour. I cant stand paying for it and it is the reason I will not be giving a dime to UB once I graduate.	3/3/2017 10:21 AM
71	Scholarships for PT study	3/3/2017 10:15 AM
72	I would love for GSA to advocate on the graduate students' behalf to gain a better parking situation for us. Potentially in the form of a special graduate student parking pass that could allow us to park in faculty lots. Traveling between campuses during the day for experiments is especially problematic and should be addressed.	3/3/2017 10:06 AM
73	That parenting scholarship is a fantastic idea. I want my whole fee to go towards that.	3/3/2017 10:04 AM
74	Let all students realise that they have been provided with these services, I personally thought i never got any of those services apart from the speakers lectures i have attended.Make them more accessible to students	3/3/2017 10:03 AM
75	I think the fee should be used to help send researching graduate students to conferences which are relative to their research interests in order to help them network and promote the department. This of course would involve a brief application form (where, when, why).	3/3/2017 9:32 AM
76	The mandatory student activity fee is necessary.	3/3/2017 8:20 AM
77	Spend more money funding on student research and less on everything else. There are departmental cuts coming across the board offering fewer opportunities for current students to adequately live while doing research.	3/2/2017 11:48 PM
78	Funding should apply primarily to research grants, professionalization workshops, and club events/conferences.	3/2/2017 9:44 PM
79	We should get more free tickets to DSS talks	3/2/2017 8:41 PM
80	Since we have a university writing center now, there's no reason for the GSA to have editorial services.	3/2/2017 8:07 PM
81	The fee should not be mandatory. There are free editorial services on campus already. We don't need another. Statistics services would be nice. Programming is a waste. Few people attend, and they are usually regulars. Why do you need a webmaster? Clubs aren't required to have sites, and the gsa site is a simple wordpress page. How does that need someone to 'master' it. Distinguished speakers tickets are free, but limited. Also, it seems nice to have distinguished people come talk, but at the expense of a mandatory fee each of us could be using to pay rent and buy groceries? The diamond research fund is a non-starter; no one gets it. I find it comical that you include conference funding, since if you didn't take money from my stipend I could pay for my own conferences better. Same for department funding.	3/2/2017 7:46 PM
82	n/a	3/2/2017 7:39 PM
83	reduce the salary of President, Vice president and Treasurer. It was increased, but not hourly. This should be reduced	3/2/2017 7:35 PM
84	I would prefer if it was voluntary	3/2/2017 7:30 PM
85	Any way to offset necessary school/professional spending (conferences, books and supplies, travel for research, etc.)	3/2/2017 7:23 PM
86	Conference costs often greatly outweigh the amount a student can get to fund their trip so I would like to see more available for PhD students over the course of their career	3/2/2017 7:09 PM
87	The mandatory student activity fee should be significantly reduced. It is too expensive right now..	3/2/2017 6:54 PM
88	I think money should go toward supporting students' living expenses (for ex. help with conferences, research, and child care costs), rather than for social events which attract only a small subset of the graduate population.	3/2/2017 6:52 PM

89	I would support a scholarship for parenting students on the condition that no other services the GSA provides will be cut. It seems that this proposed scholarship is a result of the poor childcare services in the United States and the fact that having a child while pursuing graduate school can be a significant financial barrier to low income parents who are seeking a higher degree. The main issue with the proposed scholarship fund is that the money we spend will most likely be reallocated, which in turn means that services such as research funding gets cut. We are already in an environment where funding is systematically being cut. If in order to save the budget for the services provided I am perfectly willing to have our fee pay for the scholarship. This is a service needed but I am not sure if the GSA has the resources unless it is able to get the money without shuffling it at the expense of other services.	3/2/2017 6:43 PM
90	These fees aren't a charity. Put the money into defraying research expenses.	3/2/2017 5:50 PM
91	Stats Stats Stats! Not all of us have departments with stats people and some of us have to do COMPLEX stats with limited help.	3/2/2017 5:48 PM
92	Reduced salary for office managers.	3/2/2017 5:27 PM
93	creation of a shared services/collaboration social network that will allow us to publish public requests for collaboration. In this way it's easier to find research groups with specialized abilities to assist with other projects.	3/2/2017 5:23 PM
94	more funding for master's students beside MDRF- it has too many loopholes	3/2/2017 5:22 PM
95	Increased funing for conferences - this is a mandatory part of being a graduate student, but students are severely limted on conferences they can attend due to finances - which, in turn, impacts future potential.	3/2/2017 5:15 PM
96	Have no idea about Editorial Services and Statistics Services mean in this survey. I applaud for this survey, it is the first time that I am aware of the fact that GSA is organising activities ad events. I am happy that I am involved in the decision making process of GSA. I really encourage you continue doing similar things so that more graduate students can be involved somehow. Then the GSA become the real GSA. Thanks again for getting us involved!	3/2/2017 5:12 PM
97	Overall I think the GSA has been doing a fine job with its use of the mandatory SA fee.	3/2/2017 5:11 PM
98	It would be most appreciated if the GSA considered using some funds to increase the availability of student parking on North Campus.	3/2/2017 5:06 PM
99	There should be more scholarships/grants/promotion of student research and organizations and less going to speaking events that only serve a select group	3/2/2017 5:05 PM
100	GSA doesn't feel accessible to me - I don't have the need to use their services such as editorial services, building a website, etc. I do value the GSA events that happen in my department, but I don't attend programs outside of that and don't feel like I want/need to. I wish more funding was given to conference attendance (we exceed that \$550 limit in one year! And we do not get any departmental support for conferences) and research support - such as MDRF. To be honest, if someone is helping me with project design and/or editing, they should be in my field or a closely related field. A general "stats lab" or "editor" doesn't seem helpful or necessary to me at all. I also wish that GSA funding came from other sources besides my pocket. It's hard for me to pay for services every semester for programs that I do not want or need to use.	3/2/2017 4:59 PM
101	Get a Dunkin' Donuts on campus	3/2/2017 4:55 PM
102	I enjoy all the social events by GSA and I think we need more of them.	3/2/2017 4:50 PM
103	#3 is an excellent idea!! i fully support this!	3/2/2017 4:48 PM
104	The GSA should make access to research funding easier (they can "practice" applying for national fellowships when they have faculty status and it is part of their jobs) and allow students to use it as they fit - which includes childcare and the purchase of computers etc.. Graduate students are already underpaid at UB and should receive as much financial support as they can. UB is a research university only in name as long as it is no willing to support the research of its graduate students more.	3/2/2017 4:47 PM
105	Pay \$1000 per year conference funding	3/2/2017 4:46 PM
106	Can you just reduce the amount of the fee and cut funding to all of these options?	3/2/2017 4:42 PM
107	We need additional services for online learners if they are going to continue to pay fees. (A growing portion do not meet the 75 mile radius nor the needs test) - also a growing portion are non-traditional - can some of the funds be reinvested so that non-traditional learners have more networking oportunities (i.e. hard to drive 50 miles to go to a Mardi Gras party while my child is in the school play) etc.. I'd like to see a video access option for events, like the DSS (and as many club events as possible). That way online students could take advantage of these opportunities also.	3/2/2017 4:38 PM
108	The fees are high enough already. We should find a new way to organize these events like SA does.	3/2/2017 4:38 PM
109	mail out annual financial report	3/2/2017 4:38 PM
110	More conference funding	3/2/2017 4:35 PM

111	More research funds and few scholarship for International students.	3/2/2017 4:33 PM
112	More events like that beginning of the year Soho party. Super fun	3/2/2017 4:30 PM
113	It might be worth exploring the allocation of funds for graduate students to attend fitness classes on campus for free.	3/2/2017 4:28 PM
114	I am so proud and excited to hear that GSA is considering a parent scholarship. Thank you. Furthermore, I appreciate the services of GSA more than the events.	3/2/2017 4:26 PM
115	Why do TAs/GAs/RAs (who are employees) have to pay these fees?! Most of these activities have been already covered through their fundings...	3/2/2017 4:26 PM
